

K-Love is essential and instrumental to the San Antonio community. They provide encouraging Christian music, community calendar events and national news. If K-Love was replaced by the LPFM we would lose a vital part of our community. My family believes in the station enough to warrant financially supporting their ministry monthly. The 1st amendment protects our freedom of speech and K-Love provides that outlet for San Antonio christians. K-Love serves the community with news, weather, upcoming events and national news. It is 80% of the radio my family listens to daily. Losing K-Love would be devastating to the christian community in San Antonio. Thank you for your time and consideration.

Sincerely,
Jennifer Smith
